

Mohammad Abdalrazzak

Full Stack JavaScript Developer

mohrazzak7@gmail.com • mohrazzak.tech • LinkedIn • +963995587028

SUMMARY

I'm an enthusiastic and creatively-minded Full Stack Engineer with a strong knack for problem-solving and a proven ability to thrive in fast-paced environments. With over 2 years of experience in web development, I've honed my skills while working at startup companies. My expertise lies primarily in backend development, where I've tackled various challenges in areas such as business logic, E-commerce, SaaS, and User Dashboard creation.

EXPERIENCE

Back End Developer, EasyApp

10/2023 – 12/2023 | Remotely

Orchestrated Node.js backend development for seamless customer-restaurant interactions. Optimized data storage with MongoDB, Ensured high availability using Azure cloud services, Maintained Linux servers for uninterrupted service, Enhanced user engagement with Firebase notifications, Strengthened security with WhatsApp authentication.

PROJECTS

QBite, Back End Engineer

04/2024

Node.js, NestJS, MySQL, Prisma, Swagger/OpenAPI, Redis, i18n, Ubuntu.

In my role as CEO and Backend Engineer, I led the innovation to replace paper menus with an eco-friendly e-menu system. This involved overcoming challenges in scalable solutions and optimizing multi-language support. I implemented backend infrastructure, managed databases, handled caching, and documented APIs using Swagger. Collaborating closely with the frontend team, I ensured seamless integration and even incorporated QR-code scans to enhance the menu display. [q-bite.net](#) [Github](#)

Turkish universities, Back End Engineer

01/2023

Node.js, MySQL, Express.js.

A platform for students in Turkey seeking educational opportunities. It enables searches for universities and majors, and provides news, resources, and a fully dynamic control panel. [180degreesacademy.net](#)

SKILLS

Programming Languages:

JavaScript | TypeScript | C++ | Java | PHP

Back End:

NodeJS | Express | Nest | FireBase | Azure | AWS | Ubuntu | Cloudinary | WhatsApp API | Socket.IO

Front End:

HTML | CSS | React | Svelte | SvelteJS | MUI | BootStrap | TailWind

Databases and ORMs:

SQL | MySQL | MongoDB | NoSQL | Mongoose | Redis | Sequelize | Prisma | Mongoose | TypeORM

Others: Swagger | Jira | Git | GitLab | GitHub | I18n

EDUCATION

Computer Science, University of Aleppo

2021 – 2026 | Aleppo, Syria

Known as Informatics Engineering locally, currently pursuing Computer Science at a top Syrian university. Actively engaged in ICPC problem-solving challenges, honing coding skills for a impactful tech career.
