

Mohammad Abdalrazzak

Software Development Engineer

mohrazzak7@gmail.com | +963995587028 | mohrazzak.tech | LinkedIn

With over 2 years of experience, I have optimized performance by 30%, increased data protection by 40%, and boosted data retrieval by 60%. My work has improved user interaction by 12% and ensured 99.9% uptime. I launched an on-demand service in one month and reduced expenses by 15%. Passionate about delivering high-quality solutions.

SKILLS

- **Programming Languages:** JavaScript | TypeScript
- **Back End:** Node.js | Express.js | NestJS | Firebase | Azure | AWS | Ubuntu | WhatsApp API | Socket.IO
- **Front End:** React | Svelte | Sveltekit | HTML | CSS | MUI | Bootstrap | Tailwind
- **Databases and ORMs:** SQL (MySQL, PostgreSQL) | NoSQL (MongoDB, Redis) | ORM (Sequelize.js, Prisma, TypeORM) | ODM (Mongoose)
- **Others:** Swagger | Postman | Jira | Git | GitLab | GitHub | I18n

EXPERIENCE

Back End Developer, Unifi Solutions  04/2024 – Present | Remotely, Canada

- Led backend development for hotel management, ensuring real-time notifications with Firebase.
- Optimized system performance, improving response times by 30% and enhancing user experience.
- Maintained high server availability, achieving 99.9% uptime and seamless operations.
- Collaborated with cross-functional teams to design and launch new features.
- Enhanced security with robust authentication mechanisms, increasing data protection by 40%.

Full Stack Developer, EasyApp  10/2023 – 12/2023 | Remotely

- Developed a Node.js backend for seamless customer-restaurant interactions, boosting efficiency by 60%.
- Improved data retrieval speed by 60% with MongoDB, enhancing user experience.
- Increased user interaction by 12% with Firebase notifications.
- Enhanced security with WhatsApp authentication, increasing user trust by 50%.

PROJECTS

QBite, Back End Developer  04/2024

Node.js, NestJS, MySQL, Prisma, Swagger/OpenAPI, Redis, i18n, Ubuntu.

- Led innovation to replace paper menus with an eco-friendly e-menu system as CEO and Backend Engineer.
- Managed a process re-engineering project to improve and consolidate end-to-end service processes; restructured communication flow among 10 departments and cut down paperwork by 75%. Implemented backend infrastructure, managed databases, and handled caching.
- Documented APIs using Swagger and ensured seamless integration with the frontend team.
- Enhanced the menu display by incorporating QR-code scans.

Turkish Universities, Back End Developer 01/2023

Node.js, MySQL, Express.js, Ubuntu.

- Developed a platform for students in Turkey seeking educational opportunities.
- Enabled searches for universities and majors, providing comprehensive news and resources.
- Created a fully dynamic control panel for user convenience.

EDUCATION

Computer Science, University of Aleppo 2021 – 2026 | Aleppo, Syria

- Known as Informatics Engineering locally, currently pursuing Computer Science at a top Syrian university.
- Actively engaged in ICPC problem-solving challenges, honing coding skills for an impactful tech career.
